PHILOSOPHY OF THE DEWEY PUBLIC SCHOOLS

The Dewey Public Schools are dedicated to the proposition that the primary function of publicly supported schools in a free society is to maintain and promote the ideals of that society. Consequently, the general purpose of education to which we are committed is to prepare each individual so that he/she can participate constructively in the patterns of individual and group living consistent with his/her capacities or limitations, and thereby participate in and promote the ideals of our society.

INTRODUCTION: Education is a cooperative effort between parents, students and the school. The parent is responsible for being involved in their child's educational experience and for supporting the school in achieving its goals. The students are responsible for applying themselves to the course of study and for abiding by school rules. The school is to provide a safe and productive learning environment for its students. By working together, we can make the education of our community's young people a productive experience. This handbook is provided in an effort to share the understanding and information that is necessary in meeting these goals.

Vince Vincent
Superintendent

PARENTS:

We suggest that parents make themselves familiar with the contents of this handbook and discuss it with their child. Copies of the more comprehensive **District Policy Manual** are available for review at any building level office. If, during the course of the year you have concerns regarding your child's educational progress, or any of the policies as set forth by the district, we invite you to contact the appropriate administrator. **School Board Meetings** are normally held on the first Monday of every month at 6:00 pm. in the Administration Building. XXVII. RULES FOR STUDENTS REGARDING DRUGS AND ALCOHOL	22
XXVIII. MENINGITIS/MENINGOCOCCAL DISEASE	23

Any student between the ages of 5 and 21 shall be entitled to attend school in the district in which they reside or are legally transferred. The residence for any child for school purposes shall be the legal residence of the parents, guardian, or person having legal custody within the district. A child may establish residency by residing with an adult who is a legal resident of the school district and is not a parent, guardian, or person having legal custody of the child, if that adult has assumed permanent care and custody of the child. In such cases the custodial adult must sign an affidavit to that effect in the office of the superintendent. They must do so with the knowledge that falsifying such a document is a misdemeanor punishable by imprisonment in the county jail for not more than one year or a fine of not more than \$500 or both.

Students shall be placed in an appropriate educational level based upon documentation of academic progress or of competency in the Oklahoma Academic Standards (OAS) and the verification of appropriate health records. Students entering from a school not accredited by the State shall be placed according to their level of mastery of the priority academic student skills as demonstrated on a locally administered exam. Placement of students in a grade level or academic area will be in accordance with an evaluation of documentation provided, any examination results and consideration of social, emotional, and physical development and chronological age.

II. ATTENDANCE AT SCHOOL:

A. According to the **STATE LAW ON SCHOOL ATTENDANCE** (70-10-105) it is unlawful for a parent of a child age 5 to 18 to neglect or refuse to cause or compel such child to attend some school and comply with its rules. Failure to do so can result in court action. It is also unlawful for a child over age 16 and under age 18 to refuse to attend some school and comply with its rules unless he/she has completed 4 years of high school or has signed an attendance waiver. Such waivers are only granted in the most extreme cases.

B. **PHILOSOPHY:** Good attendance is essential to success in school. Poor attendance habits create problems at school, at home, as well as in future employment opportunities. Therefore, as established by local board policy, ***a student may not miss more than eight 8 days of school per semester and still receive credit***. Either a building principal or a Building Appeals Committee, due to extenuating circumstances, ***MAY*** grant exceptions to this policy. Students entering the school system during a semester will be required to provide an attendance record from their previous school to be applied to this policy.

C. **STUDENT ABSENCES:** School law (70-10-106) also states that (1)a full and complete attendance record is to be kept by the school, (2) parents shall notify the school concerning the causes of a school absence, and (3) unless so notified the school shall "attempt" to notify the parent of the absence. *Students who do not reside with their legal parent/guardian must have an affidavit of self-support and/or documentation of their independence on file to call in for themselves.*

Therefore, THE PARENT OR GUARDIAN IS TO CONTACT THE APPROPRIATE SCHOOL SITE WHEN THEIR CHILD IS ABSENT FROM SCHOOL.

IF A STUDENT IS ABSENT MORE THAN EIGHT (8) DAYS, IN ANY GIVEN CLASS, THEY WILL NOT RECEIVE CREDIT FOR THAT CLASS FOR THAT SEMESTER BASED ON THE POLICY AS NOTED ABOVE. Please refer to the Elementary and High School's building attendance procedures for any "Appeals" options, Saturday School Buy-Back contingency, or summer school options if the attendance limit is exceeded. A written procedure is available at building offices. Excessive absence cases may be reported to the SCHOOL RESOURCE OFFICER and additional action may be taken.

1. **EXCUSED ABSENCE:** Upon notification by the parent/guardian by noon on the day following an absence, a student *may* be excused from school and allowed to make-up the school work missed for absences related to illness, medical appointments, family emergencies, or college visits. School related "activity absences" are recorded separately.

2. **TRUANCY:** Students are considered truant when they are absent without proper notification from or without the knowledge of their parents or more than 15 minutes late in reporting to class. Time in after-school or in-school

detention may be assigned. Multiple trancies may result in a long-term suspension out of school, or recommendation of possible placement at the alternative school site, whichever is the most appropriate. **NO MAKE-UP WORK** will be allowed for absences listed as trancies.

D. TARDY POLICY:

1. ELEMENTARY: A student must be in attendance for at least 2 hours in the AM or PM to be recorded as present for that ½ day. Early dismissal from school is counted as a tardy. Students with excessive tardies will be referred to the assistant principal for parent consultation. Attendance is important and when students are tardy they are missing valuable instructional time. Students are to report to the office for an admit slip before reporting to the classroom.

If a student is absent, **EXCUSED** or **UNEXCUSED**, more than eight (8) days in a semester, that student will be required to attend summer school to make up excessive days missed. If the student fails to follow this guideline he/she would be required to repeat that grade level, the principal retains discretion in all such decisions.

2. MIDDLE AND HIGH SCHOOL: Students who are not in class when the bell finishes ringing are considered tardy. Students tardy because of another teacher should bring a note (or IM) from that teacher directly to their class to be admitted. Otherwise the tardy should be reported to the office for record keeping purposes. Excuses such as "over-sleeping, car trouble, running late"...etc. can still be considered as tardies, even if the parent calls. If a student is more than 15 minutes tardy to a class he/she will be counted absent for that period. Tardies start over at the beginning of each semester.

MS – Each teacher has the right to incorporate consequences for any tardies in his or her own classroom. If a student accumulates more than three (3) tardies in one class in a semester, administrative action may be taken.

HS - Tardies are recorded per period by the teacher, and reported to the assistant principal after the first two.

**** 3 to 6 - AM or PM detention, ** 7 to 10 – In School Detention (ISD) and ** 11+ Out of School Suspension.**

E. DISTRICT POLICY REGARDING HOMEWORK

The Board of Education believes that homework is an important part of the educational process. Homework shall be related to the school's aims and philosophy of education, but its primary objective shall be to aid in the development of the student. The need for homework, the kind of homework, and the amount of time spent on homework will vary with the student, the home, and the grade level of the student.

There are three main purposes for the assignment of homework. 1) to ensure satisfactory progress at the student's grade level, **2)** to provide enrichment or differentiated activities for student's of varying abilities, and **3)** in the event of student absences, to provide sufficient make up work to allow equal progress with the rest of the class.

Students should be reminded before they leave each day if they have homework to complete. However, the students have the final responsibility to get their work done. Parents have a responsibility to check with their child before they leave for school each day to see that their child gets the work to school.

F. MAKE-UP WORK: School work missed due to certain absences can be made up at the request of the student. New assignments given during the absence shall be due the day after a student returns to class. Assignments given prior to an absence shall be due upon the student's return to class. Arrangements to pick up homework at the appropriate building office, can be made by a parent, **for those absences that extend beyond two school days.**

G. LEAVING OR RETURNING TO SCHOOL GROUNDS: Students leaving from or returning to the school grounds for any reason during class time must check in or out of the appropriate building office.

H. WITHDRAWAL FROM SCHOOL: Any student who is leaving Dewey Public Schools to attend another school should obtain a withdrawal form from the office. This form is to be completed and returned to the office. Books, fees, supplies, and

finances must be accounted for before current grades can be reported and sent to the new school. A copy of the withdrawal form and proper credentials will be given to the student to present to their new school for enrollment purposes. All other student records will be mailed at the request of the new school.

III. NONDISCRIMINATION and GRIEVANCE PROCEDURES:

The Dewey Public Schools does not discriminate against any person on the basis of race, national origin, color, age, religion, sex (including sexual harassment), gender, qualified disability or veteran status in the implementation of its programs and activities. The School District complies with the Civil Rights Act of 1964, Title IX of the Educational Amendments Act of 1982, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990 and the Age Discrimination Act of 1975. The school district has adopted **Grievance Procedures** for filing, processing and resolving alleged violations of this policy or other Discrimination Complaints. A free copy of the Grievance Procedures can be obtained from the school principal or superintendent. Contact the superintendent at extension 201 with questions or concerns or to initiate a complaint.

IV. SEXUAL HARASSMENT:

All students, employees and Board members are strictly prohibited from engaging in any form of sexual harassment of any student, employee, applicant for employment, vendor representative or patron of the Dewey School District. In the case of a student of the School District, "sexual harassment" is defined as unwelcome sexual advances, requests for sexual favors and other unwelcome verbal or physical conduct of a sexual nature by any person towards a student. Any student engaging in sexual harassment is subject to any and all disciplinary action which may be imposed under the School District's Policy on Student Behavior.

Any employee or student who is or has been subjected to sexual harassment or knows of any student or employee who is or has been subjected to sexual harassment shall immediately report all such incidents to either the superintendent, principal, assistant principal or any Board member of the School District. If a report of an incident needs to be made after normal school hours, the above-listed individual may be contacted at home. It is preferred that all such reports be made in person or in writing signed by the reporting party.

However, in order to encourage full, complete and immediate reporting of such prohibited activities, any person may report such incidents in writing and anonymously by mailing such report to the personal attention of any of the above-designated persons. All such reports should state the name of the alleged harassing student, employee or Board member, the person(s) being harassed, the nature, contacts and extent of the prohibited activity, the dates of the prohibited activity and any other information necessary to a full report and investigation of the matter. The School District will investigate all reports.

V. TITLE IX:

Title IX of the Educational Amendments of 1972 prohibits discrimination on the basis of sex in education programs and activities. Any student who believes that the Dewey School District has violated Title IX may file a discrimination complaint using the District's Grievance Procedures for Filing, Processing and Resolving Alleged Discrimination Complaints. Students and their parents can obtain a free copy of the Grievance Procedures from their school principal or superintendent. Contact the Superintendent of Schools for further information concerning Title IX requirements or to initiate a complaint.

VI. STUDENT BEHAVIOR:

A. PHILOSOPHY: We believe that all students can behave properly while at school and conform to the rules of the classroom and policies of the school; and they are expected to do so. Our goal is to provide a positive learning environment. We desire to assist each student in developing desirable behavior patterns and self-discipline. When discipline is necessary, it is intended to be handled in the fashion described below with fairness and justice to all students within the school system.

Appropriate behavior is of course the primary responsibility of the student. The teacher accepts primary responsibility to take corrective measures within the classroom to maintain a positive learning environment. The principal assists the teacher

when behavior problems have become repeated or excessive and the disciplinary techniques available to the teacher have not corrected the misbehavior. The principal will enact stronger methods in hopes of curbing the behavior problems or take steps to remove the student from the classroom in order to restore a positive learning environment.

B. RESPONSIBILITY OF THE STUDENT:

1. Obey the basic rules as set forth in the student handbook.
2. Obey any individual classroom rules as discussed by the teacher.
3. Apply themselves to the established course of study.
4. Complete class work and assignments on time as required.
5. Seek help and assistance for assignments from the teacher as needed.
6. Be attentive and participate in class as appropriate.
7. Do not be disruptive to the learning process of other students.
8. Be in attendance and on time at school on a regular basis.
9. Learn to criticize fairly and to accept criticism when appropriate.
10. Adhere to methods utilized to correct behavior when needed.

C. RESPONSIBILITY OF THE PARENT OR GUARDIAN:

1. Understand the rules of the school as stated in the student handbook.
2. Support the student and school in achieving the curriculum objectives.
3. See that the student attends regularly and notify school of absences.
4. See that the student is in good health. This includes providing medical records and authorization for any needed medications.
5. Support efforts to correct behavior when necessary.
6. Be available for conferences and work with the classroom teacher towards the goal of educating their child.

D. NOTE: Teachers have full authority and responsibility to correct student behavior and are responsible for discipline at all times in all parts of the building, school grounds, and at school sponsored activities. As provided by State Law: every teacher shall have the right to exercise the same authority over a student at school and its activities in regard to conduct and behavior that a parent may exercise over the student at home. **NOTE: State law allows a school to assign campus site service (sweeping hall/classroom, trash pickup, desktop/table cleaning, etc) to a student as a consequence for violating a district's discipline policy.**

E. DOCUMENTATION: A disciplinary file will be kept on each disruption and/or office referral to fully document a history of student discipline problems. This file may be referred to by students, parents, and school staff as needed.

F. TUTORING: Some discipline situations arise from academic difficulties. Each teacher is on duty 15 min. before and 15 min. after school to assist students with academic difficulties. Students must take the initiative to seek the needed academic assistance. Some tutoring is available through the Indian Education Grant. Individual tutors can be sought through the building offices. Middle school students may be assigned to before or after-school tutoring for missing assignments. Elementary students will be referred for tutoring by the classroom teacher. This free service will be offered before and after school.

G. BEFORE/AFTER-SCHOOL DETENTION: (BSD/ASD) can be assigned by an individual teacher and is “normally” held from either 8:00 to 8:15 am or 3:20 to 3:45 pm as needed to assist student schedules. Students are expected to be on time and should bring something to work on. Failure to attend will result in further disciplinary action including ISD.

H. IN-SCHOOL DETENTION: (ISD) is for the temporary placement, during regular school hours, of those students with disciplinary infractions. ISD assignments are documented and a copy provided for the parent. As determined by the

principal, any failure to report for, excessive referrals to, or ISD disruptions, may result in suspension out of school. Students are only permitted a maximum of ten days in ISD (per semester K-8, per year for HS) then they are automatically suspended for any offenses after that time.

I. SCHOOL BULLYING PROTECTION ACT:

Oklahoma Statute has established the *School Bullying Protection Act*. The Board of Education recognizes that intimidation, harassment, and bullying of students causes serious educational and personal problems, both for the student-victim and the initiator of the intimidation, harassment and bullying. The Act defines the terms “harass, intimidate, or bully,” as including, but not limited to, any gesture, written or verbal expression, or physical act that a reasonable person should recognize will:

1. Harm another student;
2. Damage another student’s property;
3. Place another student in reasonable fear of harm to the student’s person or damage to the student’s property; or
4. Insult or demean any student or group of students in such a way as to disrupt or interfere with the school’s educational mission or the education of any student.
5. This also includes the use of any electronic devices to intimidate or threaten, both at and away from school.

Bullying, harassing and intimidating behavior often involves expressive gestures, speech, physical acts that are sexually-suggestive, lewd, vulgar, profane, or offensive to the education or social mission of the District, and at times involves the commission of criminal acts. This behavior interferes with the curriculum by disrupting the presentation of instruction and also disrupts and interferes with the student-victim’s or by-stander’s ability to concentrate, retain instruction, and study or to operate free from the effects of intimidation, harassment, and bullying. This results in a reluctance or resistance to attend school.

According to experts in the field, bullying in general is the exploitation of a less powerful person by an individual taking unfair advantage of that person, which is repeated over time, and which inflicts a negative effect on the victim. The seriousness of the bullying act depends on the harm inflicted upon the victim and the frequency of the offensive acts. Power may be but is not limited to physical strength, social skill, verbal ability, or other characteristics.

As thus defined “Bullying” can be described in several categories:

PHYSICAL BULLYING includes harm or threatened harm to inflict bodily harm or property damage through verbal or written speech or gestures. Common acts include tripping, hitting, pushing, pinching, pulling hair, kicking, biting, starting fights, daring others to fight, stealing or destroying property, extortion, assaults with a weapon or other acts of violence.

EMOTIONAL BULLYING includes the intentional infliction of harm to another’s self-esteem, including insulting or profane remarks or gestures, harassing and frightening statements.

It can also include off-campus dating violence that adversely affects the victim’s school performance, attendance or behavior.

Students and staff alike are encouraged to inform appropriate school personnel if they are the victim or witness to acts of harassment, intimidation, or bullying. Building Safe School Committees shall work with staff and students to create a safe educational environment at their school site. Parents are encouraged to work with these committees and with building staff and administration as well as their children to create positive educational experiences for all children.

School programs are ongoing to educate both students and staff for improvement in this important area of student conduct and school climate.

J. CORPORAL PUNISHMENT: The Public School System has the same authority to administer corporal punishment as the parent. This form of discipline will be used only after other methods have been attempted. In those instances where the parent does not want his/her child paddled, it should be so indicated with a **YEARLY written statement** to the building principal at the time the student enrolls. In these cases, the school will then select another form of discipline, which may include suspension out of school. School personnel will observe the district guidelines (see district policy manual) when administering corporal punishment.

K. STUDENT OUT-OF-SCHOOL SUSPENSION - EXCLUSION FROM SCHOOL: Students may be subject to suspension out of school. Suspensions will be either **short term** (ten (10) days or less) or **long term** (beyond 10 days and up to one year for certain offenses according to federal law). SHORT OR LONG TERM SUSPENSION: The parent will be notified of suspensions, both by phone and written notice, when possible. Depending on the length of the suspension, a suspension notice may be sent by certified mail. When parents can't be reached the student will be held in ISD the remainder of the day. An individualized student academic plan will be developed for suspended students for the duration of the suspension.

Parents and students have the right to appeal the principal's decision to impose a long or short-term out-of-school suspension. Procedure of appeal is:

For long-term out-of-school suspensions, an appeal must be presented to the Superintendent of Schools by letter to the Superintendent within five calendar days after the principal's decision is received by the parent or student. VII. SEARCH OF STUDENTS:

In accordance with State Law school personnel may open and examine school property at any time for any reason. Students are informed that they have no privacy rights concerning the contents of school lockers, desks, technology items, or other school property. Access to personal student property may be requested. Failure to comply may result in notification of local law enforcement officials for assistance.

VIII. STUDENT DRESS CODE:

The operation of a public school is not intended to provide an open opportunity for the uncontrolled expression of individual preferences of fashion. Students are expected to dress properly and to reflect a neat appearance that is acceptable to the orderly operation of the school.

Any article of clothing or jewelry, hairstyle, attachment (ie, chains) or modification of such that disrupts, distracts or disturbs the process of teaching and learning or jeopardizes student safety is not allowed.

The following items are NOT APPROVED:

- a. Items that promote or display tobacco, beer, or alcoholic beverages, drugs or drug paraphernalia, violence, vulgarity, sexual implications, profanity, or gang affiliation.
- b. Shorts, skirts, dresses, etc. that are not at least the length to cover the upper third of the student's thigh, as determined by administrators at each building site.
- c. Tops or shirts (less than shoulder width), fish net, bare midriffs, low cut neck lines or under the arms or sleeveless shirts for boys. IX. STUDENT RECORDS and FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT:

A. STUDENT RECORDS: Educational or school records include all materials directly related to a student that a school maintains. To carry out their responsibilities, school officials and designated employees will have access to student education records for legitimate educational purposes. A record of access will be kept to identify all such individuals who access student records. Records and notes maintained by, for example, a teacher, administrator, or school nurse for his or her own use, and which are not available to anyone other than a substitute, are exempted from the definition of educational or school records.

Types of records kept include: Cumulative School Records (includes grades, attendance data, immunization history, testing results and school activities), Health Records, School Transportation Records, Speech Therapy Records, Special Education and Psychological Records.

The building principal is designated as the legal custodian of all records kept in their respective building. All other student records kept in the Administration Building are the responsibility of the Administrative Assistant and Director of Special Services.

B. STATEMENT OF RIGHTS: The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age (“eligible students”) certain rights with respect to the student’s education records: They are:

1. The right to inspect and review the student’s education records within 45 days of the day the District receives a request for access.
2. The right to request the amendment of the student’s education records that the parent or eligible student believes are inaccurate, misleading or in violation of student rights.

Parents or eligible students may ask the District to amend a record that they believe is inaccurate or misleading. They should write the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate, misleading or in violation of student rights.

If the District decides not to amend the record as requested by the parent or eligible student, the District will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to consent to disclosure of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student participating in a school service program or serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his/her professional responsibility. Upon request, the District discloses education records without consent to officials of another school district in which a student seeks or intends to enroll.

4. The right to file a complaint with U.S. Department of Education concerning alleged failures by the District to comply with the requirement of FERPA. The name and address of the Office that administers FERPA are: Family Policy Compliance Office, U.S. Department of Education, 600 Independence Avenue, SW Washington D. C. 20202-4605

C. DIRECTORY INFORMATION:

The Dewey School District proposes to designate the following personally identifiable information contained in a student's record as "directory information", and it will disclose that information without prior written consent:

1. The student's name;
2. The names of the student's parents;
3. The student's address;
4. The student's telephone listing;
5. The student's date of birth;
6. The student's class designation (i.e., first grade, tenth grade, etc.);
7. The student's extracurricular participation;
8. The student's achievement awards or honors;
9. The student's weight and height, if a member of an athletic team;
10. The student's photograph; and
11. The school or school district the student attended before he/she enrolled in the Dewey School District.

After the parents or eligible student have been notified, they will have two weeks to advise the School District in writing (a letter to the Office of the Superintendent of Schools) of any or all of the items they refuse to permit the District to designate as directory information about that student.

At the end of the two-week period, each student's records will be appropriately marked by the records custodian to indicate the items the District will designate as directory information about that student. This designation will remain in effect until it is modified by the written direction of the student's parent or the eligible student.

X. EVALUATION OF STUDENT PROGRESS:

A. RETENTION OR PROFICIENCY BASED PROMOTION:

1. RETENTION: The normal, orderly and systematic progress of each student through the school system is the desired objective. If it becomes apparent that normal progress is not being made, the student may be considered for retention. A building committee will consider the following factors:

1. Testing which actually covers the subject matter presented to the student.
2. Assignments directly related to the subject matter being taught.
3. Consideration to a lesser degree will also be given to the student's level of maturity (physical, mental emotional and social) and to the student's attendance record.

After receiving a committee decision to retain a student or upon receipt of the student's report card showing a failing grade in a course, any parent may request reconsideration of a retention decision or a decision to not pass a student in a course by requesting review of the initial decision by letter to the building principal within five days of receipt of the parent's receipt of the committee's decision. A parent may request a copy of the District's Policy on Student Promotion and Retention and Student Pass/Failure of a Course from the building principal.

2. PROFICIENCY BASED PROMOTION:

Under normal circumstances students will progress sequentially through the curriculum upon evaluation of demonstrated skills at the end of each semester or year. However, upon a written request, a student will be given the opportunity to demonstrate proficiency in one or more areas of the core-curriculum, ie; Social Studies, Language Arts, The Arts, Languages, Mathematics and Science. * Proficiency will be demonstrated by an appropriate means of assessment of the curriculum area, such as: criterion-referenced test and/or portfolio, thesis, project, product, performance or relevant laboratory techniques. Students attempting proficiency in subjects already attempted but failed must obtain a minimum of 60%. Students attempting proficiency in subjects not yet attempted must do so at the 90% level. Satisfactory scores on State/Federally mandated examinations of core content, as a demonstration of Proficiency, will also be accepted. All such assessments will focus upon the Oklahoma state approved academic standards as aligned to curriculum and instruction.

Students so achieving shall be given appropriate notation on their permanent record or transcript and advanced to the next level of study in the curriculum. Such advancements through the curriculum must be sequential. The school shall provide a minimum of two opportunities per school year for such proficiency assessments. The decision for promotion in grades 1-8 will take into consideration such factors as social, emotional, physical and mental growth. The school will confer with parents as needed in making any such promotion/acceleration decisions.

A complete description of this policy can be reviewed in the district policy manual.

B. SEMESTER EXAMS:

Semester exams will be given to ALL STUDENTS in grades (6) six through (12) twelve for all full credit classes (as defined by the Oklahoma State Department of Education). Exams will be administered on the last two days of each semester. Exams will count as 20% of the final semester grade. Exams for students with disabilities may be counted as a lower percentage as deemed appropriate by their IEP team.

Material to be covered by the exam is to be comprehensive but for the current semester only. Teachers will be required to provide a study guide of specific examination information for students no later than three school days prior to the examination period. Teachers are allowed to use a comprehensive project(s) in lieu of a semester exam to meet this requirement upon approval from the building principal.

An examination schedule is to be established and posted by the principal that allows for one (1) hour examination periods. Even and odd class periods will be tested on opposite days. Non-examination periods will be designated as study periods during the two-day block.

If a student is given an excused absence on an examination day he/she will be allowed to make up the exams upon arrangement with the building principal who will administer the exam. Students who fail to make up any missed exams will be given an (I) incomplete. All incomplete grades must be cleared up within two weeks from the end of the semester or a zero will be awarded and used in calculation of the semester grade. Students who are unexcused on an examination day will receive a zero for missed exams.

Semester Exam student exemptions will apply for High School. Please contact the high school counselor's office or building office for exemption requirements. Exemptions will be based attendance and current course grades.

C. STUDENT TESTING:

1. Individual evaluation of a student is initiated with a PRE-REFERRAL through the building counselor, and then a complete REFERRAL FOR EVALUATION, if appropriate, will be processed through the Special Services Department.

2. **Student Achievement Testing** is conducted each year at all building sites in grades 3-12 according to the requirements and guidelines of the Oklahoma State Testing Program (OSTP) as administered by the State Department of Education's Office of Accountability and Assessment. Classroom instruction is to align to the established State Department of Education objectives so that students will be prepared to participate in the administration of these tests. In order for a student to be successful on State Achievement Assessments they must apply themselves to the instruction presented. Benchmark testing will be provided during the year to track student progress against curriculum objectives.

D. SPECIAL SERVICES DEPARTMENT:

This department works with the school counselors in handling requests for individual testing referrals either from school staff or from parents. The Pre-Referral request is made to the appropriate counselor first. Each case is then evaluated to determine the appropriate measures to initiate, one of which might be a referral for evaluation by a qualified examiner.

Building Administrators supervise the special programs within their buildings available to students who have been properly identified as needing or qualified for special education and related services. These include speech therapy, learning disabilities, special education labs, and also the gifted and talented program. Special Services also administers the Federal Funds from IDEA-B (Individuals with Disabilities Education Act) that support program expenses. Questions regarding the activities of this department can be directed to Ext. 278. See also section XIX Child Find page 15.

E. ELIGIBILITY:

1. All Oklahoma Secondary School Activity Association requirements for participation in extracurricular activities are included as part of this policy. School groups affected by extracurricular activity regulations are defined in the Oklahoma Secondary School Activities Association Constitution and Rules. Participation in school sponsored extracurricular activities shall be contingent upon the student fulfilling the following:

STUDENTS MUST BE PASSING ALL SUBJECTS IN ORDER TO PARTICIPATE IN EXTRACURRICULAR ACTIVITIES.

For the purpose of this policy, grades are to be recorded by the classroom teacher at least twice per week and reported to the building principal once per week. Eligibility will begin after the third full week of each semester.

2. A student who has failed to maintain the required grade will first be placed on **ACADEMIC PROBATION** for a period of one week following the failure to maintain his/her grades. Each student on academic probation will be notified. The student will be given one week to correct the deficient grade(s) or be declared ineligible to participate for the following week's activities if failing in any class. A student will not be allowed to be on probation for two consecutive weeks.

3. **TIME/LIMITATIONS:** Once a student has been declared ineligible he/she will remain so until his/her grade(s) have improved to passing in all classes. The period of time of ineligibility is from Monday morning through the next Sunday. Loss of eligibility prohibits a student from participation in interscholastic competition (with students from other schools), band, cheerleading, FFA, and vocal music interscholastic activities. It does not, however, prohibit engaging in practice or other types of regular participation.

4. **SEMESTER ELIGIBILITY:** A student must pass five courses at the end of the semester in order to be eligible during the next semester. A student may attend summer school to improve deficient grades that will apply towards his/her eligibility. A student who has not passed five (5) courses at the end of a semester will be ineligible for the first six weeks of the next semester. If a student is passing all classes at that time, he/she will then become eligible to participate.

F. GRADING SYSTEM: The Dewey School grading system is based on letter grades with numerical values as specified below:

A = 100 - 90, B = 89 - 80, C = 79 - 70, D = 69 - 60, F = 59 AND BELOW.

Information regarding student progress is made available approximately the 5th week of each quarter. Progress reports are given out two times during each semester. Grades are posted at the end of each semester making two grading periods per year with progress reports posted periodically during the semester.

XI. STUDENT HEALTH:

A. HEALTH SERVICES: A professional nurse or trained "health clerks" are on duty during school hours. If a student becomes ill or needs medical attention he/she should be directed to the building offices where a referral to the nurse can be made if deemed necessary. If it is necessary to send a student home due to an illness, the nurse or the principal will contact the parent to make arrangements for such.

B. STUDENT IMMUNIZATION: Oklahoma state law requires immunization against certain diseases for all school children. The school nurse evaluates all students' health records, and may deny permission to enroll until all immunization records are current and in compliance with state law. Required immunizations are: DPT/DT, polio, and measles, mumps, rubella vaccination (2 MMR), Hepatitis A and B, and Varicella (chicken pox).

C. STUDENT MEDICATIONS: All medication to be given during school hours on a "routine" or "as needed" basis must have proper authorization from parent/ guardian and such be on file in the office of the school nurse or building office. For **prescription medicine**, a school authorization form must be completed and signed by no one other than the Dr. with Dr. orders for dissemination included. With such authorization, the school nurse or the nurse designee may administer a nonprescription or a filled prescription medicine according to administration directions. All such medications **MUST BE IN THE ORIGINAL CONTAINER, BOTTLE OR UNIT DOSE** or will not be dispensed and may be discarded. MS and HS students may be authorized by the nurse to dispense their own medications (ex: Inhalers, Epi-pens, throat lozenges) on an individual case basis. **All prescription/non-prescription medication must be picked up by the parent/guardian at the end of the school year or we must discard. Schools cannot store medication for the next school year.**

D. EXTENDED ILLNESS: An extended illness shall be interpreted as any illness, condition, or long term chronic situation. Under normal circumstances, arrangements for missed school work can be made through the school office and are to be completed upon the student's return to the classroom. If the illness requires hospitalization or a homebound situation, contact the school office or special services for direction of continued enrollment.

E. MEDICAL RELEASE: A medical release form can be completed in student illness situations, and signed by a doctor, stating the dates of illness or treatment and clearance to return to classes. Upon approval of the building principal, this form can serve as a waiver of the district's policy for 90% attendance. The form should be signed by all parties and returned to the building office, within 48 hours of treatment, or before the end of the grading period affected for any consideration.

F. GENERAL HEALTH:

Students should be sent to school in good general health and cleanliness and be properly fed and rested. Frequently children complain of a headache, stomachache or sore throat before going to school, placing the parent in a dilemma as to whether the child is ill or just "nervous" about an upcoming event. Certainly if your child has had diarrhea, vomiting, or a temperature greater than 100 degrees, he/she should be kept home. The temperature of your child must be less than 100 degrees for a 24 hour period without giving medication to control the temperature before sending him/her back to school. Parents should not send their child to school if they have a contagious illness (such as pink eye, chicken pox). If you are unsure, please accompany your child to the office of the school nurse between 8:00 and 8:15 am, and the determination will be made at that time. Caution must be exercised to not exceed the allowable absences, 10 absences per semester.

G. ASBESTOS: Dewey Public Schools has completed an Asbestos inspection and has written a management plan as required by the Asbestos Hazard Emergency Act of 1987. The management plan is available in the Superintendent's office for those who may wish to view it.

XII. CODE OF CONDUCT FOR TECHNOLOGY USE AND INTERNET ACCESS:

The purpose of providing computer applications and Internet access is to develop communication skills and promote the exchange of information and ideas within the global community. The following represents a guide to the acceptable use of the technology provided by this district. All network use must be consistent with policies and goals of the school district.

Inappropriate use of district technology will result in the loss of technology use, disciplinary action, and/or referral to legal authorities.

Each system user is expected to comply with all district policies governing Internet access and to abide by generally-accepted rules of network etiquette. The general rules include, but are not limited to, the following:

- (a) **Appropriate language** – Do not use abusive language in messages to others. Be polite. Do not use obscene, indecent, lewd or profane language, vulgarities, rude or disrespectful language. Do not engage in personal attacks or activities intended to distress, harass or annoy another user.
- (b) **Safety** – Do not reveal personal contact information about yourself or any other person. This information includes telephone numbers and addresses. Do not use the Internet access to arrange meetings with persons you have met on line. Users will promptly disclose to the teacher, District system administrator or to some other member of the faculty or staff any message they consider to be inappropriate or which makes them feel uncomfortable.
- (c) **Electronic mail** – Users should be aware that electronic mail (E-mail) may not be assumed to be a private communication. The District and system administrators do have access to E-Mail. Messages relating to or in support of illegal activities will be reported to the authorities. System users should not post any message which is intended to be private.
- (d) **Network resources** – System users should not use the network in a way that will disrupt the use of the network by other users. **The network should be used for educational, professional and career development activities.**
- (e) **Intellectual property** – Do not plagiarize work obtained from the Internet. Users must respect the rights of copyright owners and comply with all limitations imposed upon use of copyrighted material.

With access to such vast storehouses of information and instant communication with millions of people from all over the world, material will be available that may not be considered to be of educational value by the District or which is inappropriate for distribution to children. The District has taken available precautions, including but not limited to enforcing the use of filters that block access to obscenity, child pornography and other materials harmful to minors. However, on a global network, it is impossible to control all material and an industrious user may obtain access to inappropriate information or material. The District firmly believes that the value of the information and interaction available on the Internet far outweighs the possibility that students and employees may procure material that is not consistent with our educational goals.

Any user of District technology resources implies an understanding of and agreement with the above terms and conditions of this Acceptable Use Policy, and agrees to abide by all terms and conditions described. If a parent wishes to limit their students access to the Internet while at school they may request such in writing at a building office.

XXVIII. MENINGITIS/MENINGOCOCCAL DISEASE**What is meningitis?**

Meningitis is an inflammation of the tissues that cover the brain and spinal cord. Bacteria, viruses, or fungi may cause meningitis. Viral meningitis is the most common form of meningitis and is caused by an infection with one of several types of viruses. Meningococcal meningitis is caused by the bacteria *Neisseria meningitides*, and causes a more severe disease that requires prompt treatment of the patient with antibiotics. There are other types of bacterial meningitis, so it is important to confirm which type of bacteria is causing the meningitis to determine if antibiotics are needed to prevent possible illness in exposed people.

Information regarding meningitis symptoms, causes, prevention, diagnosis, and treatment can be found in our public health sheets located in the building offices or online at the Oklahoma State Dept. of Health at <http://ads.health.ok.gov>.
